When you have your portrait taken you naturally want a GOOD one; to ensure this you must go to a place where not only the best appliances and artistic skill are to be found, but where also TIME can be taken to study your features, get their most pleasing expression, the most suitable light and graceful pose.

If the photographer lowers his prices too much he cannot take the necessary time to do his work well, but must run his customers through like sheep, trusting to the NUMBER to make his profit.

A sensible person will beware of such and prefer to go where fair prices are charged and every care taken to ensure the work turning out satisfactorily; such is the case at the "Gran Fotografia Platense" whose customers never having been driven away by excessively high prices do not require to be lured back by catchpenny reductions.

TELEGRAMS
TO
STANDARD.

London, 29th.—Alarming telegrams have been received from India and inspire a fear that England will have to interfere in Afghanistan for the security of her frontiers. The rebels are gaining ground, and it is feared they may succeed in deposing the Emir of Afghanistan. British troops will be sent to the Indian frontier to be prepared for eventualities.

London, 30th—Gladstone is confined to bed with a cold, and his general health is rather delicate.

Belgrade, 30th.—King Alexander will leave shortly for Biarritz, to visit his mother, Queen Natalie, and will remain a fortnight with her. He will probably visit his father at Ems on his return.

Chicago, 30th—The Exhibition Commissioners have ordered the erection of new galleries, as the existing plans would not suffice to meet the continually increasing demands for space.

Paris 30th—Senator and ex-Minister Teisserene de Bort is dead, aged 78.

Advices from the Congo say that the troops of that independent state have attacked a French post recently established on the Sangha river by Brazza. Government has asked for particulars, to make good its consequent claims.

Emperor William's return to Potsdam has revived the question between Bismarck and the German Government. *Figaro* publishes a telegram from Berlin stating that Bismarck will probably be prosecuted. Nobody here believes this.

Madrid, 30th—The Spanish gunboat Pilar has had a long exchange of shots with 100 Moors on the Morocco coast, and killed some of them. The gunboat was forced to fire, as the Moors fired first on her from the coast. The affair is looked on as the result of the terminant orders given to Spanish representatives, naval commanders and Governors in Africa.

Rome 30th—King Humbert's trip to Genoa has been fixed for the end of August. This date has been decided on to put an end to the polemic on the subject. In official circles it is still believed that the French squadron will go to Genoa to salute the King, in spite of the articles in the French papers, with which, it is believed, the French Government has nothing whatever to do.

(To the "Prensa".)

New York, 29th.—Foreign Bonds heavy on London Stock Exchange. Silver bars 39 3/16ths.

The heat here for some days surpasses anything on record, and many deaths have occurred from sunstroke and physical prostration.

Belgrade, 29th.—Turkish troops have been sent out to suppress a formidable rising in Albania.

Simla, 29th.—The great Bezud tribe has joined the Hazaras against the Emir of Afghanistan, and their combined forces are blocking the road between Cabul and Herat. Five hundred British troops and two guns have been sent to occupy the Gumal Pass on the Afghan border.

Sophia, 29th.—Fresh plots to overthrow the Bulgarian Government have been discovered.

St. Petersburgh, 29th.—It is feared, with good reason, that there will be famine in the country again this year, unless vigorons precautions are taken in advance.

FINANCES OF CORDOBA.

EXTRAORDINARY REVELATIONS.

The first act of Governor Pizarro on taking office in Cordoba was to appoint Commissioner Thiriot to make up an exact statement of the condition of the finances on the day of his assuming the Government, May 16th, 1892. We have now before us the report, dated Cordoba 22nd June, which throws much light on the situation.

In the first place, we have the Budget estimates, and the amounts received and expended, viz. :

Revenue.	Estimate.	Result.
	$	$
Property-taz.....	757,000	59,000
Public lands.....	150,000	29,000
Bank profits	2,500,000	0
Licenses & stamps	450,000	231,000
Sundries	544,000	236,000
Total.....	4,401,000	555,000
	Estimate.	Result.
	$	$
Int. on debt.....	2,185,000	0
Police	352,000	106,000
Schools	328,000	14,000
Legislature.....	152,000	32,000
Judges	102,000	15,000
Rural authorities..	149,000	10,000
Band of music.....	19,000	400
Sundries.....	494,000	129,600
Total.....	3,781,000	307,000

Ia appears from the foregoing that the receipts for 4½ months were $555,000, say $125,000 per month, or $1,500,000 per annum, that is one-third of the estimates. The amounts paid out of the Treasury were only $307,000, or about $70,000 a month, and if the Government could be carried on at that rate there would be a surplus of $55,000 a month.

We find, however, that the Treasury was exceedingly "morose" in its payments. For example there was nothing whatever paid on the 3 foreign loans. Even the Band of Music was put off with a Morateribus, and the Police of Rio Cuarto received nothing whatever out of 20,000$ which the budget assigns to them.

It may be interesting here to put this question: As the Treasury received 555,000$ and paid out 307,000$, what became of the balance, say 248,000$? Meantime the following notes in Mr. Thiriot's report deserve notice.

1. Nothing has been paid this year to the school-teachers, porters &c., nor to the Cordoba Hospital, which latter is entitled to 1,000$ a month.

2. The budget of 1891 shewed an imaginary surplus of 625,000$, and that of 1892 a like suaplus; but there was a deficit of 3,000,000$ in 1891, and the result in 1892 promises the same.

3. Bank-profits figured for 2,500,000$ in the estimates, although the Government knew that the bank had not 10 cents to give.

4. The Band of Music has resigned *en masse*, having received no pay.

5. Nothing has now been paid on the Foreign Debt for 18 months.

6. The revenue for the current year is not likely to exceed 1,410,000$, that is 855,000$ for the remaining 7½ months.

7. The National Government owes two years' subsidy at 19,000$ per annum, for public schools.

8. The public debt of Cordoba amounts to £5,000,000 sterling (including £540,000 coupons in arrear unpaid) and 32,600,000$ currency; altogether 115 millions currency, if gold be taken at 330.

9. All the preceding debt (except $200,000) has been contracted since 1876, and is accounted for this :—

	$
San Roque breakwater.	4,300,000
Theatre.....	850,000
Penitentiary & hospital.	1,100,000
Suburban land-lots.....	4,140,000
Bank of Cordoba.....	34,230,000
Sundries	700,000
Unaccounted for.....	69,680,000
Total.....	115,000,000

There is a balance of nearly 70 millions of public money of which no trace exists !

10. The revenue and expenditure of the Province for 1893, supposing the service of debt, shew thus :—

	$
Service of debt.....	9,780,000
Railway guarantee.....	1,150,000
Government expenses..	1,490,000
Total expenditure.....	12,420,000
Revenue	1,420,000
Deficit.....	11,000,000

The above 10 items sum up Mr. Thiriot's report, which cannot fail to impress the National Government with the necessity of proposing some steps to introduce a better order of things in the finances of Cordoba. We fear that many of the other provinces are in as bad a condition.

BANKS AND BANKING.

The farewell dinner given last night to Mr. H. G. Anderson, director of the London and River Plate Bank, reminds us of the improved condition of banks and banking in Buenos Ayres, as compared with a year ago. The improvement, happily, is not confined to the banks, but shews itself also in the weekly returns of railway traffic, the fall in the gold premium, the increase of the import trade and customs revenue, and the better tone of the public mind.

Banks must necessarily play a role of importance in every civilized community and when prudently managed may not only give a good return to shareholders but also prove a benefit to the public at large. The increase of banking-power in the world in the last 50 years is much greater relatively than the increase of population or commerce.

Population has grown 50 per cent, commerce has multiplied 6-fold, and banking nearly 11-fold, since 1840.

The banking-power of the world has grown as follows :—

	Millions £sterling	
	1840	1890
G. Britain.....	132	910
U. States.....	90	1,030
Other countries....	86	1,257
Total.....	308	3,197

The banking-power of various countries in 1890 was made up thus :—

	Millions £		
	Capital	Deposits	Total
G. Britain.....	284	626	910
France.....	140	128	268
Germany.....	85	146	231
Austria.....	45	102	147
Italy	25	83	108
Spain.....	31	16	47
Scandinavia...	16	37	53
U. States.....	270	760	1,030
Australia.....	26	108	134
Canada	13	27	40
Various	95	134	229
Total.....	1,030	2,167	3,197

This prodigious amount of value may be said to represent a large portion of the savings of nations. It is in some manner a set-off against National Debts. Taking merely the increase of banking-power and of railway capital since 1840 the sum is much in excess of the increase of the public debts of nations :—

	Millions £	
	1840	1890
Banking.....	308	3,197
Railways.....	71	6,140
Total	378	10,037
Nat. debts...	1,690	6,160

There was a balance of 1,300 millions against mankind in 1840, on the above items, whereas now there is a balance of nearly 4,000 millions to our credit. It is not unfair to conclude that but for the increased facilities of banking the credit account in favor of mankind would not be so much as it is.

NORTH-WESTERN OF URUGUAY.

The eleventh general meeting was held at Winchester House, Mr. Charles Mott presiding.

The Chairman said: Gentlemen, it now becomes my duty to move that the report and accounts now presented to the meeting be received and adopted. I make this motion on this occasion with a somewhat disheartened feeling. Eight years ago this railway was an isolated piece of line about 60 or 70 miles in length, and its expenses at that time exceeded its income. We set to work, and, by dint of hard work and a good deal of anxiety, we got that line completed. We have got it joined up with a complete system to Montevideo, and with a further branch to the Brazilian frontier from one of our stations, and we have made it by that means a part of our system. Of course, these lines, as you know, were carried out by independent companies, but they were more or less aided in the first instance by this company. Having done all this, and having raised our receipts from about £17,000 a year to £47,000, we had some hopes that the long-suffering shareholders of this company would at last be receiving an adequate return for their money. Unfortunately, our eight years work has been thrown back by the action of the Government in repudiating one-half of their guarantee, and by the collapse of credit in the River Plate districts, which has made so serious an inroad upon our traffic during the last year. The only comfort that we can find is that all this alteration—this going backward—arises from no fault of the directors, but from the sins of the Governments of South America. In the new arrangement with the Government, the amount of the guarantee to be received from them, together with the interest on the bonds which we hold, is just sufficient to pay our debenture interest, and very little more. We have, therefore, to look for any return to the shareholders entirely to the earnings of the line in the future. You know that the past year has been a very unfortunate one. We are not the only railway company that has suffered heavily by it; but things are looking brighter, and our traffics at last are showing a tendency to increase again. The customs receipts of Uruguay are also considerably increasing, and altogether there is a much more favourable condition of things throughout the whole of the River Plate. We hope, therefore, that we have turned the corner again, and that our receipts in the future will go up steadily and not have this serious reaction from which we have suffered in the last year. You will see that in our net revenue account there is a balance of £41,000 brought down to the credit of that account; but, unfortunately, it is only an accountant's statement, and from that has to be deducted the whole of the loss which we suffer from the bonds of the Government of Uruguay being paid to us at a price twice their market value. The Government were owing us in absolute cash, as you will see by the balance-sheet, some £69,000, and for that they have paid us bonds which, if sold at the present market price, will result in a loss of nearly £30,000, which has to be taken from the £41,000. It is very unfair on their part, not only to reduce our guarantee for the future by one-half, but to pay the arrears of the guarantee in bonds which they know are worth very little more than half the nominal price. That is our present position; we cannot help it. The matter was settled without our assent, and we really had no option whatever. As I explained to you at the last special meeting, we were obliged to accept it, but I cannot help making a last protest against such treatment as this. We have been doing all we can to develop the country, and we are met with treatment like this. If you deduct £30,000 from the £41,000, it leaves about £11,000 or £12,000, which is equal to the 2 per cent. dividend which we propose should be paid. As regards receipts, our passengers have decreased in money £2,870, our goods traffic £9,450.

As regards the prospects of this railway, there is no doubt that the most important thing we have to look to is the question of colonisation along the line. We have discussed this matter year after year at our annual meetings, and I have told you my views upon it. A company, as you know, was formed, called the Uruguay Land Company, which bought land at one of our stations. They fixed a number of families upon that land, and the colony is going on satisfactorily. We are very anxious that colonisation should be carried out in the same way at other stations along our line, and we are trying to make some arrangement with that object in view. The one thing that is wanted in Uruguay at the present moment is an increase of the colonisation and the turning of the land from the cattle ranche into the cultivated farm. A large area of vines has been planted along our lines, and I am glad to say that the reports this year are that there is a very large harvest of grapes. There was a very interesting speech delivered by the chairman of the Brazil Great Southern Railway the other day, and I am glad to find that there is every prospect of that line being further extended. It has not brought us a large amount of traffic yet, but as it goes northward the volume is likely to increase, and I hope we shall derive from that source, as well as from the other railway connections as they gradually develop, an increased traffic. I beg, to move : "That the report now presented to the meeting, together with the statement of accounts and balance-sheet for the year ending December 31, 1891, be received and adopted."

Mr. Arthur Holland seconded the motion, and said that the returns showed a decided improvement in the trade of this country with South America.

The report was adopted, and a dividend at the rate of 2 per cent. for the year 1891, was declared on the first preference stock.—*London paper.*

AN ATLANTIC LINER ASHORE

THRILLING ADVENTURES.

The Queenstown correspondent of the Central News telegraphed yesterday. At an early hour this morning the report was received here that the Inman and International liner the "City of Chicago" had run ashore during a dense fog on the rocks about half a mile to the westward of the Old Head of Kinsale. The ill-fated steamship's bow was embedded in a reef of rocks, with the well-known headland towering fully 200 ft. and overhanging her. The fore compartments of the ship were full of water, and her stern from amidships floated. In order that she should not drift out into deep water and founder, her propeller was kept working steadily ahead to keep her grounded forward. All the passengers had scaled the high cliffs by means of rope-ladders supplied by the coastguard. Mr. Wingall stated that they sailed from New York on Wednesday, June 22, with 130 saloon passengers, 138 second cabin, and 92 steerage—in all 360 souls. During the voyage fine weather was experienced. On Friday at noon a fog set in, but it lifted occasionally. We passed Cape Clear, but thereafter we saw nothing until we struck the rocks. It was then eight o'clock, and we were steaming at full speed. The weather was very thick at this particular time, and the first intimation we got of being near land was a shout from the look-out man of "breakers ahead," and immediately afterwards the steamer went on to a reef of rocks, and her bow ran into a large cavity of the cliff. Gigantic, steep rocks towered over us to a height of 200 feet. There was a tremendous crash when the ship struck. The shock was something terrific. Several were thrown down by the violent concussion and the water rushed in in an alarming manner, filling the fore compartments quickly. A semip-panic ensued; women shrieked and children cried. However, the coolness under trying circumstances displayed by Captain Redfern and the splendid discipline of the officers and crew had a great effect. They assured the frightened passengers that there was no immediate danger. Orders to sound the pumps were given and promptly obeyed; rockets were fired off and flare-up lights exhibited as signs of distress. It was an anxious time for those on board the stranded ship. The fog was dense, and the rolling waves as they broke on the rock-bound coast and rushed into the cavities of the rocks, made a terrifying din. But assistance soon arrived. The coastguards of the Kinsale station, together with local fishermen, were quickly on the scene of the disaster. They swarmed on the hill-tops overhanging the ocean, and were prompt in rendering assistance to the shipwreckod people. The coastguards fired a line across the ship, but, unfortunately, this rocket struck one of the crew and broke his arm. Captain Redfern now decided to wait no longer for help from shore, and the lifeboats having been launched the passengers were sent ashore with little difficulty or delay. As they stood upon the narrow beach and ledge of rock between them and the steamer, it seemed difficult to understand how they were to reach the level ground far above them, but the resourceful coastguards were equal to the occasion. From the top of the cliff they lowered rope ladders with wooden bars, and by these perilous means upwards of two hundred passengers scrambled up the lofty cliffs in the darkness of the night—a feat which, had they been less excited and desperate, they would not have dreamed of attempting. Many women and children were amongst the climbers, but only one accident occurred—a little child fell from his mother's arms when half-way up the cliff, but happily he dropped into the muscular arms of a sturdy sailor and thus escaped without hurt. Soaked by the rain the shipwrecked people had to walk in many instances miles before farmhouses were discovered. Then they stretched themselves before fires to dry their wet clothes. The charity extended to them was not disinterested. For a cup of tea they were compelled to pay a sum of 2s and for other things they were charged in proportion. At daylight in the morning a fleet of rescuing steamers had gathered in the vicinity, amongst them being the Cunard tender Jackal, and the Liverpool tug Stormcock. The former, with the Ireland, rescued many boatfulls. Several of the wrecked passengers, who had made their way into small bays facing the Atlantic, paid 10s. to fishermen to carry them off to the tenders for conveyance to Queenstown. When the *Central News* correspondent left the scene of the wreck this morning the steamer had a list to starboard, and was bumping heavily on the rocks —*Exchange.*

PROVINCIAL NEWS.

Free Bank Inspector Thiriot, who was the first to point out the rottenness of the provincial banks, has raised a violent storm in Cordoba by his report on the hopelessly smashed-up bank of Cordoba and on Cordobese finances. In our leading-column will be found Mr. Thiriot's figures. The latest rumor in reference to the Cordoba Bank is that the Board have asked for a moratorium of six years.

No further particulars have been received in reference to the sanguinary affair at Choya Salla. Some people maintain that the brothers Coronel were killed in a duel with Gomez. It appears that the latter was wounded by one of the brothers. The official organ reports that the police-station at Choya was attacked by Gomez and that the brothers Coronel were killed while defending it. There are several other versions; but the facts of the case are simply as follow: two brothers killed and one man wounded.

A Bahia Blanca exchange states that a dairy-farm on a large scale has been started by Mr. Charles M. Godoy on his estate near the town. The butter is described as "insuperable." Mr. Godoy has three hundred milch-cows and all his machinery is of the most modern description. B. Blanca is a good field for this kind of enterprise, as the people, who are very fond of butter and cheese, are dependent on neighboring settlements for dairy products.

An unpleasant incident occurred on Thursday night in the usually quiet little town of Zarate. The local Intendente who seems to have a grudge against a certain Mr. Dobarro, happened to meet the latter in the street and assaulted him with his 'rebenque'. The cries of Mr. Doborro attracted the attention of a number of people who rushed to the scene of assault and rescued the victim. In regard to this incident it was rumored yesterday that a trap had been laid for Mr. Dobarro. Someone called at his house and informed him that a friend desired to speak with him urgently. Mr. Dobarro went out and met the Mayor.

CREAM, THE WOMAN-SLAYER.

From America details of Neill Cream's career are pouring in. Most of these are of a startling character. A Dalziel cablegram says that during Neill's early youth his parents emigrated to Canada, and his father went into the wholesale lumber business and amassed a fortune. The son was apprenticed to shipbuilding, but after working for some years at this he gave it up. His father then sent him to McGill College, Montreal, to study medicine, and he graduated from this institution with great credit in 1876. Cream's criminal career, which before long landed him in the Illinois Penitentiary, is alleged to have begun soon after he commenced practice. He settled down in Kingston, Ontario, and is said to have soon attained a questionable reputation. One morning the body of a woman was found in a shed in the rear of his office, and the post-mortem revealed that she had died from a criminal operation. There was great excitement over the case, and Neill was accused of having caused the woman's death, but the evidence was not sufficient for his conviction, and he was permitted to leave Kingston, which he did He went to Hamilton, Ontario, and continued practice, but within three months a similar case occurred. Another body of a woman, a victim of malpractice, was found, and Neill was arrested and tried on a charge of murder. Insufficient evidence left him free once more, and he then went to Chicago, where he became notorious in the latter part of the year 1877. A great sensation occurred in 1878 through the death of a prominent Chicago lady, who was one of his patients. He was arrested and tried, and the evidence was clear. The lady's maid, a negro woman, swore positively that she saw the operation performed by Neill, and the extended cross-examination left her story unshaken. He was found guilty, and under the name of Cream, was sentenced to imprisonment for life in the State Prison at Joliet. He remained a convict in this prison for 10 years, and was then pardoned on the ground that his failing health rendered further imprisonment dangerous to life.. His father died, and Neill upon leaving prison found himself well equipped with money. The father had divided his property equally among his children in the following terms :—I bel queath to my son Thomas Neill Cream the sum of $16,000 in stock of the Merchants' Bank of Canada for his own use should he ever regain his rights of citizenship. After leaving the prison Cream went to England. In March last he visited Quebec, and went thence to Montreal, where he sold his stock in the Merchants' Bank. He paid a visit to his sister Rachel, and afterwards visited his brother, Daniel Cream, in Quebec. There is no doubt of his identity, as his picture has been identified by many who personally knew him.

While the man was in prison in Chicago his name was struck off the roll off Mc Gill College, the last year in which it appears in the published report being 1881. The photograph of him taken with the graduation class of 1876 shows him with short bristling hair on the forehead and long side whiskers, of a reddish hue. Cream displayed a marked religious tendency, and taught a class in the Chalmers Sunday School in Quebec. While in Ontario he got married, it was alleged at the time because of pressure put upon him by the lady's relatives upon learning that he had betrayed her. In fact, he was seized by them as he was about to quit the town. He left his bride at the altar, and never lived with her. He is described as a musician of some ability, with a good voice and a jovial manner, and he was noted for dressing with taste and care. —*European Mail.*

THE MATTO GROSSO MINING EXPEDITION.

Buenos Aires, 21 June, 1892

To the Editor of *The Review.*

Dear Sir—

Mr E. W. Beckett, in a letter published in the last number of your paper, endeavours to repudiate all responsibility in connection with the Matto Grosso Gold and Exploration Concession's syndicate, and to justify his conduct towards the Expedition, of which I was the commander.

My claims against this Syndicate are now in the hands of my solicitors in London, and for this reason I prefer not to refute in the Press Mr Beckett's assertions with regard to his responsibility. I believe that he will find it prudent to pay me, as he and Mr D'Arcy have already done with the geologist, botanist, and miners of the Expedition.

I take advantago of this opportunity to state, at the request of Sir Frederick Milner, that he had nothing to do with the Expedition.—I am, dear sir, yours faithfully.

RAILWAY ITEMS.

Dr. Araoz has written to the Home-Minister on the subject of the Railway-Map, which the N. R. Board is obliged by law to draw up every year. Engineer Chavanne drew up the last map and the Board called for tenders for its publication, but the terms asked were so high that Dr. Araoz finally decided to have the map printed in Europe. For this purpose Mr. Chavanne went to Vienna with the plans and came back some time ago with 1000 copies and the stones used for lithographing. The whole cost came to about one-third of the figures proposed here. The work has been so excellently done that the Board proposed to employ Mr. Chavanne to make out such a map every year, but Congress refused to provide for such a post. However, next year it is probable the post will be created. In the meantime Dr. Araoz proposes to give Mr. Chavanne 50 copies of the map as compensation for time lost.

The Board of Public Works have issued a report urging the Government to throw out a project presented for the third time by Messrs Veslet and Franestte for the construction of a Grand Central Terminus. The original project was unfavorably reported on by the Board a year ago. Since then the applicants have modified the project by suppressing certain features and adding others. However, the Board are opposed to the project.

EDITOR'S TABLE.

The weather yesterday may have been very good and grand for the camp, but it was the quintessence of detestability for the city. Such mud! Such drizzle! Such dismality! Nevertheless old Mrs. Rumour was out, with her umbrella up and her skirts draggled: and did n't the old woman talk? "You bet," as our rich republican relatives say,

We'll lay 1,000 to 1 against any racing at Palermo to-day. Who says "done"?

The International Match, Scotland v. England, which was to have been played at Quilmes to-day. has been postponed to an indefinite date, owing to the very bad weather and the inability of the Scotchmen to get up a full team.

The G. P. O. is looking up: but it is to be feared that the proposed increased postage rates will make it look down, if carried out. The returns for the first six months of the past two years are :—1891, $1,112·965.92; 1892, $1,318,829.07. An increase of 19 per cent for this year of grace and shipwrecks.

We call the attention of our camp readers to Messrs. Mackern & Shine's advertisements of cheap lots of English papers—just the thing for these long nights.

In our last we stated that Mr Vucassovich presented a project for saving shipwrecked sailors on the coast. This gentleman is Captain Juan Vucassovich, the gallant commander of the Rivadavia not Mr. Vucassovich, founder of the Platense.

The only mails to-day are for those three one-horse places, Colonia, Asuncion and Uruguay, closing at 8 a.m. for the first, and an hour later for the others. The bags for Europe to-morrow close at 1 p.m.

We are asked to announce that the North American Normal School will reopen for the second term on the 4th of August instead of the 1st, on account of the death of its fonnder, the Rev. Thomas Stockton. The three days thus lost will be made good to the patrons by having the School in session every Saturday in August.

The Senate met yesterday. Senator Varela presented a Bill to create a Juzgado de Comercio in the Capital. A message from the Executive was read, asking for a new "terna" to elect a Bishop of Salta, and it was decided to treat the matter next week. Nothing more.

The following are the principal prizes of the Montevidean Lottery drawn yesterday: 10932 20,000; 10437 1000; 5468, 9811 500 each; 2748, 10116, 4585, 200 each; 5461, 10149, 10876, 5056, 4454, 3757, 7761, 100 each.

The Attorney General has advised Government to stick to the fine of £10,000 per month for the Bateman Legacy, and not to listen to the whine of the contractors for more time.

Minister Hansen, we understand, is contemplating some vigorous reforms in the collection of Internal Revenue.

Dear old Trovatore to-night at the National Theatre. There will be a crowded house, wives or weather permitting or not.

The large attendance at the funeral of the late Mr. Alexander Kincaid yesterday in the British Cemetery bore eloquent testimony to the wide-spread esteem in which he was held. Men of all nationalities saw him laid in his grave. The Revd. Dr. Smith read the prayers and delivered an eloquent oration in the mortuary chapel; and the Revd. Mr. Wilson read prayers at the grave. The number and beauty of the wreaths on the coffin was remarked. Amongst the great number of sorrowing friends present we noticed :—Guillermo Nuñez, Alexander Hume, Harding Green, E. Diez Arenas, J. L. Williams Andrews, W. F. Mulhall, A. Mitre, Claudia Mejia, Comandante Latorre, Lieutenant Hope Mulhall, Signor Bossi, A. Gibson, A. Bell, A. Mackill, Logan, McGee, F. H. Mulhall, J. Power, M. Dinneen, M. Hade, Thomas, Ennis, T. Macdonald, A. Stewart, D. Davis, S. Wolff, M. Gonsalez, W. Corrales, Lamb, Henderson, E. Buckland, F. McCalmont' D. Brice, W. F. McKern, David Ford, etc. etc. etc.

The following telegrams are detained at the River Plate Telegraph Office San Martin 287 : from Stollberg for Basolo and Gerli, from Rio for Wilmson 623 Artes, from London for Rocha.

The Bank Note Company sent round yesterday their now generally used Memorandum Books (for August). These invaluable books have knocked on the head the vulgar habit of scribbling notes on shirt cuffs. The number of pages has been doubled, to meet the improvement in business.

The Buenos Ayres and Rosario Railway shareholders will be glad to hear that Government is going to ask Congress for $100,000, to make them a present of it, in return for their great kindness and loyalty in carrying Government troops to put down the revolution in 1890.

Pergamino is to have the Light of the Future, electricity, while Rosario is falling back on that of the past, oil. How the "crisis of progress" has turned this country's heels up.

The Zoos are good, useful people, but we hope it is not true, as alleged by a usually well-informed morning colleague, that members of the Society enter tram-cars, count the number of passengers, and if there happen to be more than the legal allowance, note the guard's number, alight, hurry to the Municipality, and have a summons served on the Company for a fine. This detective-police business will never do, dear Zoos. You must do things in the open; call the nearest "blue" as a witness, and get up a jolly row and snag-up of fifty cars, and subsequently enforce the fine. The Paul Pry system is not the ticket, and is the reverse of "so English you know."

A very laughable affair occurred in Calle Belgrano a few days ago at the residence of a wealthy estanciero who gave a very large sum to the Rosales Fund. He had given orders to his servants that he was "not at home" for anybody, as he hates visitors and bores, (generally synonymous terms.) A gentleman and two policemen knocked at the door and asked to see the owner of the house. "Not at home," said the butler, who had opened the door. "How, not at home?" We have just seen him step out of his carriage and enter the house." "He's not at home, I tell you." "He is." "He isn't." and the butler was at once arrested for "desacato." Again the trio knocked, and at the end of a similar dialogue, a second servant was arrested. A third and a fourth arrest followed. Finally the "patron" himself rushed out in a rage. The visitors were tax collecting. "How saw the operation performed by Neill, much?" enquired the irate cattle lord. "So much." "Take it and begone. Have you breakfasted?" "No." "Here are $20 for each of you to get a good feed." The servants were released, and the trio adjourned to an "opiparo almuerzo."

The weather put a stopper yesterday on the hospitable intentions of the gallant commander and officers of the U.S. war-ship Essex, and their afternoon fete had to be postponed till next Saturday, when there will be a dance, but no theatricals.

Good news for friends in the South. The Villarino is to be put on the route again when she is touched up a bit at the Tigre.

Is it never to cease? Another "irregularity" to the tune of $109,000 has turned up in the unfortunate National Bank in liquidation.

The chances are 50 to one on quarantine against cholera before a week is out. The M. V. H. B. and that here have their heads together on the subject.

We return our best thanks to that indefatigable friend and publisher, Mr. Jacob Peuser for a neatly got up and printed copy of Gamboa's novel Apariencias. Mr. Peuser is rapidly filling the Argentine section of the STANDARD Library with his books, which, so far as paper, printing and general get-up are concerned, would reflect credit on any first class publishing firm in Europe.

The news from venerable Europe and still more ancient Asia is beginning to look rather piscatorial, and the quondam Thunderer takes a gloomy view of the case. If the Big War that is to wind up this shoddy and vainglorious century is really at hand, it won't do the New World, North or South, much harm (probably the reverse), but there will be no money to be had from the world's banker, John Bull, for "regenerating" purposes in this country for "quien sabe" how many years to come.

Barham, author of the "Ingoldsby Legends," speaking one day at dinner of having seen the illuminations for the Prince of Wales's christening in 1842, said in reference to the A. E. displayed everywhere, "Ah! he'll make acquaintance with the other three vowels before he comes of age."

There is a row in the Cordoba Senate about Mr. Thiriot's bombshell, Free-Bank report. The Senators are so exasperated that they intend to send the report back to the Governor and ask H. E. to lock up Mr. T.. which he is most unlikely to do. All Cordoba is by the ears in consequence of this famous report, a copy of which we received yesterday, and beg to thank Mr. Thiriot for same. The latest news is that the Governor, the Chief of Police and Directors of the Provincial Bank have received anonymous letters, telling them to interview their respective undertakers for a "presupuesto" of the cost to their heirs of a first-chop funeral.

The Brazilians on the Banda Oriental frontier have given up crossing it and taken to dry Champagne, not as a remedy for influenza, but to wash down the best viands to be had in that not too civilized quarter. A grand dinner was given there the other night to one of the numerous Brazilian Generals who are always to be found knocking about in that region, and the fraternal affection expressed for their Oriental neighbours is a guarantee that there is nothing to be feared in the gunpowder and lead line. So best.

Real Companhia Vinicola DO NORTE DE PORTUGAL.

OPORTO.

Constituted with a capital of 6,000,000 rs. with a view to developing and sustaining the credit of Portuguese Wines by assuring patrons of these vintages sound and genuine wines. The Company has a subvention from the Portuguese Government and is the "only one" entitled to style itself ROYAL.

Besides numerous advantages the Company offers the following guarantees of the purity of its productions:—

1st—By its contract with Portuguese Government it is obliged to use exclusively in manufacture the juice of the grape.

2nd—Its cellars are under supervision of the vintners' League which issues a certificate for each consignment effected.

ON 'CHANGE.

Saturday, July 30th 1892.

Fires lighting, gas burning, hall crowded, ring squeezed, and tables all crowded, such was the Bolsa to-day. Perhaps the first really busy day we have had on 'Change since the booming days of 1889, when we were all on the Bolsa roof watching the crowd below. The heaviest liquidation to-day was in Empréstitos, which weakened somewhat, owing to the pressure of the liquidation, and many of the outside buyers on time selling out at a profit in preference to taking money on the bonds and carrying the stock. But there was money for all; and, notwithstanding the good round amounts taken up at the banks, discounts ruled as easy as ever and first class "pagaré" lists were looked for.

The liquidation came off quietly enough to-day, but the gold premium rose, as a "shortage" was felt in the market. About twenty five thousand ounces changed hands at the first ring; the price opened very firm at $53, rose to $53.10, fell to $52 80. and closed steady at 53, say 225.65% premium. Fourteen hundred sovereigns were sold at $16.45 to $16.40, closing at $16.42, say 225½% premium. The requirements of the settlement were much larger than expected and hence the rise. The engagements of the month are known to be very large but no hitches were mentioned; large amounts were passed over at a slight shave to the end of next month. At the end of last month there was a very stung bearish campaign on the strength of the sudden improvement in the market under the state of siege; that campaign would have been crowned with signal success but for the unfortunate Government decrees that cancelled the subscription to the Banco de la Nacion and ordered a fresh issue of paper money to redeem Patriotic Bonds. The majority are of opinion that, if the subscription to the Banco de la Nacion had been accepted, deficient though it was, gold to-day would be at least twenty points lower, and the market in general is of the same opinion. The decrees of the Government had a fatal influence upon the speculation and changed the whole current of affairs; but for this, the bears might have made fortunes this month, but, as always happens, the unexpected upset the whole bearish campaign, and if anybody comes out the winner this month it is the irrepressible bull. The gold tide, however, is now flowing with the bulls, for the market resists the fall in spite of all the influences at work to produce a decline.

A leading discount broker called our attention to the fact that this time last year money was worth 2 per cent a month and houses, even within 5 squares of Plaza Victoria, unsaleable. Now money is superabundant and even on mortgage was done at 10 per cent to-day, 200,000$, and house property in every part of town is selling well. This shows that the crisis is at last liquidating, and now, even at the close of winter, there is still such a stock of cereals to be shipped that we shall have both bills and produce over when the season closes. This may be said to be the first winter that our exports held all through up to spring. We hear that wheat is going from Azul to Bahia Blanca for shipment to Europe. Within the last few days there is renewed activity in both maize and wheat shipments, and large purchases of maize have been made at an advance of 10 centimes in prices.

There seems good foundation for the rumour so current these last few days about the reduction of capital of the Banco de la Nacion to 25 millions. Congress will take the matter up, and the subscription will be reopened on the same terms as regards the Empresito Bonds as before.

Next week money will be more abundant than ever, owing to the three millions which the Nacion Bank pays to the bondholders.

The Anderson banquet to-night is the talk of the market. There will be a large attendance—123 guests—some of whom have came up from Montevideo to attend it. We regret to say that owing to the influenza some of the promoters will be unable to attend.

We hear that some of the members of the Hacienda Committee of Congress are studying the Bank question, and are in favour of making the bank a joint stock concern.

Provincial Cedulas dropped away again to-day 10 cents, and this without any liquidation business whatever for the end of the month. "Sic trasit gloria Cedulæ."

Patriotic Bonds were active but weak this morning; the price for cash opened at 71.80 and closed at 72; the price for the end of the month closed at 72.10. Internal Bonds closed at 66.80 for cash. Two hundred shares of the Banco de Comercio changed hands at 92 and 91. Municipal Lottery bonds were firm at 59. Catalinas were steady at 10. La Plata Cedulas opened and closed very weak. Fair amounts were sold at 29 and 29.10. The very Bonos of the La Plata Mortgage Bank, which were in such steady demand, were weak to-day at 184¾ of their face value. The whole cedula fabric is tottering.

The following is a summary of the business effected in stocks and shares at the first ring to-day:—

Mr. Miles Passman will sell on 'Change on Monday after the first ring 500 shares of 100$ gold each, full paid up, of the Elevadores and Depositos de Granos Company. The shares will be sold at paper prices.

It is stated that the Great Southern Railway Company have resolved to spend fifty thousand pounds on extension of the sheds and deposits in the Plaza Constitucion. This will be welcome news to consignees and farmers, as the familiar snag-up of produce during the busy months will be removed. If the railway company push ahead the extension works for the coming season, the movement in favor of a concentration of business in the Central Produce Market may die out. The Plaza Constitucion would be turned into a splendid market with ample accommodation for all the produce of the South. We congratulate manager Barrow on this new move of the great company; it is to be regretted that the company did not

buy out the Central Produce Market and bring it under its own admirable business-like management.

Mr. F. Miller has brought out in the steamer Highland Chief 61 rams from the famous Rigby Grove flocks, Lincolnshire, one bull, and 29 pigs.

Mr. F. Ruiz has applied for a subvention from the Government to publish a special work on the commercial resources of the Argentine Republic, for the Chicago Exhibition.

The Chairman of the Department of Public Works has sent in a lengthy report on the rickety condition of the port works at Uruguay, in the Province of Entre Rios. The local authorities are blamed for the neglect of the works.

Owing to the heavy fog in the river the Venus only arrived this morning at 8 a.m. from Montevideo.

The tide rose to-day to 21 feet in the entrance channel.

The following sales of wethers took place at the Tablada to-day :—

200 middling at $6.20
240 thin at $4.20

Also 100 pigs in middling condition at $13.50.

This being the monthly settlement, there was no second ring. A notice has been posted up announcing that no second ring will be held on Monday owing to the Extraordinary Meeting of Members called to discuss the expediency of subscribing to the Rosales Fund.

The Handel left San Nicolas to-day with 15,000 frozen wethers and 8000 bags of grain.

The Bellenden has been engaged to load 3000 tons of cereals and 7500 salted hides for Liverpool.

The Chantrey has engaged 3300 tons of maize for orders.

The British barque Hindostan was despatched to-day with 8,100 bales of hay for Santos.

According to telegrams it has been raining steadily at Maipu, Saladillo, Ramos Mejia, Rauch, Tandil, Ayacucho, Juarez, Tres Arroyos, Las Flores, Cachari, Olavarria, Napostá, 25 de Mayo, Alfalfa, Azul, Sierra Chica, Bahia Blanca, 9 de Julio, Chacomus.

The Finance Minister has allowed Messrs Barreiro and M'Kinlay to exchange 1031 National Bank Shares for Bonds of the 1892 Internal Loan.

The balance-sheet and report of the local bank called the Caja de Descuentos for the year ending 30th June 1892 is published and it gives us much pleasure to call attention to it, as evidence of good bank management and proof that, notwithstanding the crisis and the very hard times that the bank had to go through last year, the concern is sound and well and economically managed and paying a fair dividend to its shareholders. The capital of the bank is intact and the reserve fund steadily augmenting. Owing to the landlord having raised the rent, they had to move the bank from its old quarters in Calle Piedad to its present site in Calle Reconquista, the very splendid and commodious house of Dr. Don Eduardo Costa, ex-Minister of Foreign Affairs. The bank is now as advantageously situated as any other banking establishment in this city; has a large 'clientela'; is presided over by Sr. Don Antonio Lanusse, and ably managed by our old friend Don Eugenio Richard. The net profits for the year amount to 136,934.97$, which is distributed amongst the shareholders as follows : — Shares sections A, B and C 6 %, Certificates 18, Founders 2 %, Directors 10,959 and 1,369.94, to the Sindicos; 6 % to the reserve fund and to the 'fondo de provision' 14,500. The only thing that strikes us in these figures is the rather large amount paid to the Directors.

The fog yesterday morning was worse than ever. Navigation in the river all stopped: down at the Boca the greatest confusion. Ship-captains mistaking Don Domingo Cichero's house for the Central Produce Market, and vessels groping their way in the Darsena. Down in Montevideo things even worse. The river steamers due in the morning not arrived even at dinner time; the Eolo and Venus both missing and supposed to have gone to San Blas instead of Montevideo in the density of the fog, and Captain Bateman out shooting deer and hares instead of looking after his passengers.

The excitement in the Mount was so great that if there was any good in going down to the mole to look for the steamers, that favoured locale would have been thronged to the utmost, but the fog was thicker there than any place else in Montevideo. Tourists and strangers mistook the Commercial Bank for the Hotel Oriental and walked into Mr Ingouville's office looking for beefsteaks and mutton chops instead of discounts; and the most distressing feature of the case was that, as the day wore on, and the fog got thicker, there was no distinguishing the policemen from the "chaugadores." A London fog in B. Ayres is a very inconvenient thing. People in B. Ayres, however, are accustomed to inconveniences, but a London fog in Montevideo surpasses description, with Montevidean Cedulas down to 23, the Oriental National Bank shut up, house property gone to the dogs, credit completely extinguished, people selling their chairs, tables and pianos to pay for their daily marketing, high life gone for ever; and to add to all this the Brazilians in the fog crossing the frontier and mistaking the Banda Oriental for their own country. Well may the unhappy Oriental, the descendant of 33, the survivor of Blanco and Colorado, exclaim with the Irish poet "O terque quaterque beate."

Advices from Bahia Blanco to-day are, most favourable. Port business brisk, barraqueros still baling, wool coming in from the outside pampa camps, and a new export trade sprung up in the shape of beautiful table salt from the salinas outside, that comes by Hume and Meiggs railway in sacks from the salt lakes, which, having slept for 100 years, have now woke up and promise for Bahia Blanca a very fine trade, as the salt is there and the railway alongside, so that the concessionaires have every convenience.

CHARLES OLMI

A GRANDIOSE AUCTION.

The best, most costly and notable lot of furniture as yet seen in the country; all from Dufeuil's, Paris. Inimitable regal Tapestry made to order by Gilbert Cael (20 Rue des Capucines, Paris). The owner is going to the Interior and the furniture I now offer for sale must attract the attention of all intelligent people, owing to its absolutely exceptional quality. I must also call the attention of art connoisseurs to the great value of the oil paintings, representing thousands of dollars judiciously invested. The artists are all well-known masters, viz.: Lancerotto, Caprile, Manfredi, Esposito, Volpe Bourget, Lafite, Rodriguez, Cariere, Bellouse, La Rosa, Blas and others.

Chandeliers, Carpets, Knick-knacks, Bronzes, Furniture, Tapestry: all are fit for a King's palace. A treasure in works of art; in fact an unsurpassable Exhibition. There is an exceptionally fine Grand Piano by Rachal's.

TO SUM UP: I have never offered for sale, nor has the country yet seen such a set of furniture as this. It represents a fortune.

On Tuesday, August 9th
at noon,

I will sell at public auction, for account of the owner, who is going to the Interior, the costly furniture in his palace at

1230—Calle Calloa—1230
(Between Arenales and Juncal)

Details:

The Louis XIV Drawing room: A notable set of furniture, Gobelin tapestry, a magnificent grand piano by Rachals, with bronze "cuja armonice," and crossed strings. Imposing chandelier. Inimitable oil paintings by famous masters, Moquette carpets and knick-knacks of great value.

SUPERB VENETIAN VESTIBULE full of finely carved furniture.

LORDLY DINING ROOM A LA «RENAISSANCE.» Solid set of walnut furniture, magnificent chandelier, Moquette carpet, divans, Arm chairs in velvet Chairs in stamped leather, glass and porcelain: all of the first quality.

Principal Bedroom.

An Imperial set of furniture made to order in Paris and which must be seen to be appreciated.

Young Ladies' Room,

The furniture of this room carried off a prize at the Barcelona Exhibition.

Bachelor's Room.

Splendid set of English furniture.

Superb Study.

Old oak. Really splendid and complete. Book-case, chairs and writing desks.

Every person of taste in town should inspect this palace, as it is exceptionally furnished from top to bottom. It will be open to the public from Saturday 6th—four clear days before the auction—from 10 a.m. to 11 a.m., so that all can have ample time to examine everything in it, and impress on their minds the excellence of the tapestry, carpets and chandeliers, the beauty and solidity of the furniture, and the unusual artistic value of the inimitable oil paintings. Catalogues will be ready on Saturday 6th, at the Palace itself and at my Sale Rooms 566 Piedad.

Tuesday, August 9th
at noon

TEA LA MAGNOLIA

INJURIOUS TEA DRINKING.

In the "Daily Post" of September 2 appears a leading article—evidently from an analytical expert—showing that after 15 minutes "draw," Indian Tea yields 17-73 o. tannin, while from China comes only 7-93. What this means few know, but those troubled with indigestion may realise in part by use of True China Tea for one week.

HORSFORDS PHOSPHATIC BAKING POWDER

BARON LIEBIG, the world-renowned chemist said, "I have though a great series of experiments, satisfied myself of the purity and excellence of your preparation The bread has no acid, is easily digested, and of the best taste. Aside from the conveniences this invaluable idea or yours has provided, I consider this invention as one of the most useful gifts which science has made to mankind! It is certain that the nutritive value of the flour will be increased 10 per cent by your invention, and the result is precisely the same as if the fertility of our wheatfields had been increased by that amount.

What a wonderful result is this!"

Se remataran en la Capital Federal

En nuestra casa Alsina 480 y 482

El Miercoles 10 de Agosto

a las 2 de la tarde

Remataremos por cuenta y orden de una Sociedad y por liquidacion total de la misma, 233,762 hectareas, 66 areas y 39 centiareas ubicadas en la Provincia de Santa Fe, donde como todo el mundo sabe, existen las mas vastas y ricas colonias de agricultores de la Republica y cuyos habitantes no conocen la crisis que ha abrumado al resto de ellas, debido a las espléndidas y abundantes cosechas que les han dado estas sin iguales tierras.

La ubicacion de estas queda al Oeste del gran ferro-carril que arranca de la capital de la republica y cruza toda la rica y poblada zona de colonias terminando en la ciudad de Tucuman.

Comiénsan las tierras que se ofrecen en venta, en la Estacion Arruño del ferro-carril mencionado y van hasta la Estacion Ceres de la cual distan 2 a 2 1/2 leguas estando ofrecto de ellas ubicadas sobre la Estacion Malbran extendiendose al Sud Oeste de la misma.

Todas estas tierras estan medidas, y midiendose el resto por el Agrimensor Publico, Señor Eduardo Elquera, y seran entregadas amojonadas a todos y cada uno de los compradores una vez escrituradas.

Copiamos de una carta de dicho Agrimensor, lo pertinente a la fraccion que acaba de medir, que dice:—

"Respecto de la clase de tierra, se puede considerar de tener igual calidad de tierra vejetal de 50 centimetros termino medio de tierra negra, terrenos muy altos, el agua potable obteniendose de 6 a 12 metros. No hay montes espesos, (esceptuando las tierras que estan al Norte sobre la Estacion Malbran donde los montes son muy abundantes y en partes impenetrables) sino isletas de arboles v. g. tandubay, algarrobo, palo amarillo, algarrobo negro, etc. etc.

"El lote 85 es algo bajo terreno inferior.

"Los demas lotes son adecuados para la agricultura y se encuentaan rodeados de colonias es mas pobladas y otras en formacion y cerca a las Estaciones Arruño, Herzilia, Ceres, del gran ferro-carril de B. Aires a Tucuman.

"Las poblaciones que se advierten en el plano son pobladores que tienen animales de cria (vacuno, yeguerizo y ovino) en todas ellas hay jaguales para dar agua a las haciendas.

"La temperatura de esta region es la misma que reina en de donde dista unas 20 leguas,"

Creemos que con estos datos nada tenemos que alegar sobre la bondad de estos terrenos que solo necesitan los brazos de hombres para hacerlos producir y con sus frutos sacar en un par de años doble de lo que se ha pagado por ellas.

La Provincia de Santa Fe que hace apenas 15 años, puede decirse, hera casi desierta, hoy es un damaro cruzado en todas direcciones por lineas terreas pobladas por innumerables colonias que robosan de poblacion rica y activa; llenas de molinos a vapor, elevadores de granos, fabricas e industrias sin fin.

Antes del fin de este siglo, la Provincia de Santa Fe, ocupara el mundo de sus granos de todas clases como lo hacen actualmente los Estados Unidos del Norte.

Creemos inutil insistir en mayores detalles sobre lo que son y seran estas tierras; ahi estan sus hechos que dicen mas de lo que podriamos decir nosotros.

Llamaremos si la atencion de los compradores sobre las condiciones de la venta a saber:—

Sin base ni limitacion alguna por lo que den.

El pago se hara una cu
